**Clients and friends - As part of the VStock family, we wanted to share some exciting news with you**

VStock Transfer is pleased to launch its mobile application. We are rolling out the first stock transfer industry app to our existing relationships and would welcome your feedback. The VStock mobile app will benefit and be made available to all shareholders of public companies that utilize the VStock Transfer platform.

As a leading transfer agent for hundreds of publicly traded companies on NYSE, Nasdaq and OTC, VStock Transfer is often called by shareholders and funds to provide information regarding a particular client. In an effort to better service our clients, the VStock App will provide:

- Issuer Status - allowing shareholders to search for issuer contact information
- Issuer DTC and DWAC status
- Mobile access to the latest stock market data, stock quotes and news;
- Updates re industry conferences and VStock Transfer networking events

With the VStock Transfer mobile app, shareholders of issuer clients who use VStock Transfer as a stock transfer agent, gain additional exposure and the comfort that shareholders have timely access to beneficial information.

For our issuer company clients, we also invite and welcome for you to send us your press releases for us to place on the Vstock App which will then be made available to all of our users to give your story additional exposure. The app is currently available on Apple's App Store on the iPhone and Android:
